TWENTY-SECOND ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

TOWN OF HYDE PARK,

WITH

REPORTS OF THE SELECTMEN, TRUSTEES OF THE
PUBLIC LIBRARY, SCHOOL COMMITTEE
AND OTHER TOWN OFFICERS.

FOR THE

YEAR ENDING JANUARY 31, 1890.

HYDE PARK:

PRESS OF THE HYDE PARK TIMES.

1890.

TWENTY-SECOND ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

TOWN OF HYDE PARK,

WITH

REPORTS OF THE SELECTMEN, TRUSTEES OF THE
PUBLIC LIBRARY, SCHOOL COMMITTEE
AND OTHER TOWN OFFICERS.

FOR THE

YEAR ENDING JANUARY 31, 1890.

HYDE PARK:
PRESS OF THE HYDE PARK TIMES.
1890.

OFFICERS OF THE TOWN OF HYDE PARK,

FOR THE YEAR ENDING MARCH 3, 1890.

SELECTMEN AND SURVEYORS OF HIGHWAYS:

DANIEL SAWYER (deceased),	ROBERT BLEAKIE,
AMOS H. BRAINARD,	ISAAC J. BROWN,
STEPHEN B. BALKAM.	

ASSESSORS:

HENRY F. ARNOLD,	GEORGE SANFORD,
DAVID PERKINS.	

BOARD OF HEALTH:

JAMES P. BILLS,	JOHN C. LINCOLN,
GEORGE F. DOWNES.	

OVERSEERS OF THE POOR:

JOHN TERRY	term expires 1892
CHARLES LEWIS	term expires 1891
JOEL F. GOODWIN (died Jan. 7, 1890)	term expires 1890

TOWN CLERK:
HENRY B. TERRY.

TOWN TREASURER:
HENRY S. BUNTON.

COLLECTOR OF TAXES:

GEORGE SANFORD.

SCHOOL COMMITTEE:

LOUISE M. WOOD	term expires 1892.
BENJ. C. VOSE (died March 16, 1889.)	term expires 1892.
RICHARD M. JOHNSON	term expires 1891.
EDMUND DAVIS	term expires 1891.
CHARLES G. CHICK	term expires 1890.
ANDREW WASHBURN	term expires 1890.
EDWARD S. HATHAWAY (Chosen to fill the vacancy caused by death of Benj. C. Vose.)	term expires 1890.

SINKING FUND COMMISSIONERS:

WILLIAM J. STUART	term expires 1892.
HENRY GREW	term expires 1891.
HENRY BLASDALE	term expires 1890.

AUDITORS:

WALLACE D. LOVELL.	CHARLES F. MORRISON,
ARTHUR C. BASS.	

TRUSTEES OF THE PUBLIC LIBRARY:

G. FRED GRIDLEY	term expires 1892.
FREDERICK N. TIRRELL	term expires 1892.
EDMUND DAVIS	term expires 1892.
CHARLES C. HAYES	term expires 1891.
AMOS H. BRAINARD	term expires 1891.
CHARLES F. JENNEY	term expires 1891.
DAVID C. MARR	term expires 1890.
HENRY B. MINER	term expires 1890.
FRANK B. RICH	term expires 1890.

CONSTABLES:

BENJ. E. FOGG,	DANIEL O'CONNELL.
CHAS. E. JENNEY,	WILLIAM F. CURTIS.
CYRUS GORMAN,	SAMUEL P. SMITH.
FRANK GREENWOOD.	CHARLES JACOBS.
ANDREW D. ROONEY.	

SEALER OF WEIGHTS AND MEASURES:

DAVID M. HODSDON.

FIRE DEPARTMENT:

WARREN W. HILTON	Chief Engineer.
FREDERICK A. SWEET	} Assistant Engineers.
REUBEN CORSON		

REPORT OF THE SELECTMEN.

FELLOW CITIZENS:

Our town has ad led another year to its history, and the time has come for the annually expected report. In making this, so far as our Board is concerned, we propose not only to glance at our doings for the year of our service as your selectmen, but also to take a brief retrospective and prospective view of our town's condition.

DEATHS.

The hand of death has been laid upon three men connected with our town's official affairs during the year. Almost in the moment of his re-election, Benj. C. Vose, a valued member of the School Board, and a most esteemed and useful citizen, was stricken with a mortal disease. And quite recently Joel F. Goodwin has departed from amongst us—a man appreciated by his associates: for many years one of the town assessors, and of late one of the overseers of the poor, and janitor of the town offices, in which last position he was brought into so intimate relations with our Board that his loss was keenly felt by us. But as a Board, we have most deeply sympathized with the sorrow which was generally felt by our community at the death of our associate member, Daniel Sawyer, whose sickness and decease followed so closely upon his election to office as to deprive us almost entirely of the benefit we should otherwise have experienced from his acknowledged integrity and abilities.

POLICE.

The police department has been under the charge of Charles E. Jenney, whose long experience here and in other places gave good assurance of his fitness which has been fully realized by the results. The force was reduced by us to the number employed in 1887 in accordance with the necessity imposed by the diminished appropriation of this year, and we believe that the security and property of our citizens have in no way suffered, but have been as well guarded as in the previous year; while there has been a saving of \$2,000 to the town. For a detailed report of the doings of this department, reference may be made to the report of the Chief hereinafter printed.

GRAVEL PIT.

In 1888 the town voted to buy a gravel pit and appropriated \$1,500 therefor. This not having been done by our predecessors, we have purchased a pit in the Fairmount district for \$900.

SUITS.

No suits have been brought against the town, nor any claims likely to lead to litigation presented during our term. When we entered upon our duties we found seven cases pending against the town. Of these six have been settled at a total cost of \$772.93. Two of these, that of C. H. Crumett and H. B. Miner for damage to land on Bridge St., and that of H. S. Bunton, trustee, for damage to land on Perkins avenue, were referred to arbitration and damages of \$132.93 and \$150, respectively, awarded.

The suit brought by Harry J. Booth for personal injuries received by stepping into an improperly filled hole on Fairmount avenue opposite the Baptist church was compromised for \$250.

The suit of Benj. F. Tyler for damages to team caused by his horse stepping into a hole on Dell avenue has been settled for \$50.

The suit of Michael Rogers for damage caused to his mowing land by felling a tree thereon and by trespass of the employees of the town has been adjusted for \$60.

The suit of Waldo F. Ward for damage to his estate from change of grade on Hyde Park avenue has been settled for \$130. The town is also liable for costs on the Crumett-Miner and Bunton, trustee, suits, the amount of which has not yet been determined.

The remaining suit, that of Wm. J. Hayes for injuries received from a low hanging telegraph or telephone wire is still pending, awaiting further investigation by the Counsel for the town. We have thought it interesting to briefly detail the nature of these cases, as our immediate predecessors, though alluding to the suits, wholly omitted to give any information about them.

Of the amounts agreed upon for settlement, but \$240 has been paid, being all which our incidental appropriation could allow after providing for other legitimate demands upon it, no allowance for such expenses being possible when the amount of the incidental appropriation was fixed, on account of the complete absence of any information at that time concerning the character of these suits. And now, while speaking of that appropriation, we will say that it has been drawn upon to the amount of \$207.29 to meet bills of the Board of Health, the appropriation for which proved insufficient.

It is gratifying to us to be able to state that the various appropriations which you made last spring for our use have proved ample to do all the things contemplated by us then, and it is particularly gratifying to feel that we

will not leave any unpaid bills as a legacy to our successors.

WORK ON HIGHWAYS AND SIDEWALKS.

The amount appropriated for highways was heavily drawn upon by the early spring rains and the excessive rainfall of last summer. It seemed for a time as if the money spent in repairing the ravages made by those floods was almost thrown away, because in many cases we would hardly get the streets in repair before another washout would come and undo all our work.

We regret to say that much of the street building in past years has been done in such a way that when heavy rains come large quantities of water are drawn into channels where no adequate provision has been made to receive and dispose of it; consequently we shall continue to suffer from washouts until good substantial work is done at the proper points, of a character to relieve our streets from being torn to pieces by every heavy rain storm.

We think it was the purpose of the citizens when we were elected, and it was our aim to have all new work upon our streets done in a thoroughly substantial manner, and as indicative of the mode in which we have attempted to carry out that purpose we call your attention with pleasure to the work done through the centre of the town from the N. Y. & N. E. R. R. on Fairmount avenue to the point where River street crosses Central Park avenue. We believe that this kind of work should be continued and extended year by year until every part of our town is in the enjoyment of streets built in the same manner. As this cannot all be done in one year, we advise that from one to two miles be done each year, and that a special appropriation of say \$4,000 be made each

year to brush up the other streets and keep them in fair condition, as we have tried to do this year with our small appropriation.

In the matter of sidewalks we thought it well to lay concrete the length of Everett street, in view of additions and improvements made in and around the High School property on that street, for the benefit of the scholars and teachers of that school as well as the rest of the neighborhood. The sidewalks on Oak and Maple streets, on Mt. Neponset, have also been concreted. This was ordered to be done and money appropriated therefor by the town in 1888, but for reasons the work was not done, and we found it waiting for us to do out of this year's appropriation. The brick walk on the northerly side of Oak street we began to replace by concrete for the reason that the brick was so soft and porous as to readily absorb and retain moisture, which in time of cold weather caused the surface to become so slippery as to endanger the safety of those walking upon it, and thereby make the town liable to suits and damages. The bricks we sold for \$5 per 1000. We have also commenced to utilize the curbstones placed on a portion of Austin street last year, by concreting the enclosed walk. The work on both the above-named localities was interrupted by the coming of cold weather, and being uncompleted is not paid for; but there is enough money due from betterment assessments to fully pay for all. Eight hundred feet of plank sidewalks have also been built in Readville.

We have caused curbstones to be laid along the sidewalk on West River street from a point known as the Bass estate to and turning into Glenwood avenue, about 400 feet in all. This walk has not been made of concrete but of a layer of stones covered with gravel, and we recommend the construction of more walks of this kind

as it is much less costly than concrete, and in many places will as well answer the purpose as concrete, the durability of which is yet to be proved.

The following statement shows how and where the Highway and Permanent Improvement appropriations have been expended. In the early Spring immediately after our term of office began, we gave attention to the streets looking to the filling up all the soft places and making general repairs all over the town, for which we expended \$1,194.64. As soon as we could arrange to do it we divided the town into five sections, and spent upon these respectively for general repairs, as follows :

Central division,	\$1,373 08
Hazelwood and Clarendon Hills division,	347 08
Fairmount division,	665 00
Sunnyside division,	322 95
Readville division,	497 64
Bills paid for Board of Health,	404 52
	<hr/>
Total,	\$3,610 27

In these divisions we expended on permanent improvements the following amounts :

Central division, macadamized way on River street and Fairmount avenue,	\$3,415 08
Incidental cost of dovetailing above work at termini and connections,	200 00
Oak and Maple streets (concreting),	1,719 91
Everett street, curb and concrete,	508 01
Hazelwood and Clarendon Hills division, work on culvert and street crossings,	308 45
Fairmount division, on sidewalks,	62 50
Sunnyside division, West River street near Glenwood avenue,	440 58
Preparing for concrete on Anstin street,	83 75
Readville division, plank sidewalks and miscellaneous,	450 17
	<hr/>
Total,	\$7,188 45
Add amount paid for work done last year,	261 55
	<hr/>
	\$7,450 00

Betterment assessments on Oak, Maple, Everett and
West River streets,

\$1,176 95

With this brief statement we submit our care of the highways to your praise or censure, and withhold any advice as to what streets and what work should receive especial attention the coming year. We do this because the calls are so numerous and urgent from all parts of the town that we are unwilling to give prominence to any by our recommendation.

RETROSPECTIVE.

When, four years ago, the project of borrowing \$20,000 yearly for permanent improvements was suggested, its adoption was greatly aided by the expectation which its advocates entertained that a very considerable part of the money expended for sidewalk improvements would be recovered into the treasury in the way of assessments upon abutters. The law allows such assessments to be made to an amount not exceeding one per cent. of the assessors' valuation of the adjacent property, and it was believed that, if the sidewalks were located with good judgment, such assessment would repay nearly, if not quite, 50 per cent. of the money expended. In other words, the abutters would repay about one-half the cost and every dollar expended from the permanent improvement fund on sidewalks would procure nearly two dollars' worth of work. The following table will show to what extent these expectations have been realized.

TABLE SHOWING AMOUNTS EXPENDED ON SIDEWALKS IN THE LAST FOUR YEARS AND THE AMOUNTS RECOVERED THEREFOR BY THE TOWN IN THE WAY OF BETTERMENT ASSESSMENTS.

YEAR	STREETS.	COST.	ASSESS- MENT ON ABUTTERS.	RATIO OF ASSESSMENT TO COST.

		Total for the year,	2,668 50	1,176 95	44 1-10 "
	Grand total,	35,894 70	12,446 41	34 7-10 "	

It will be seen by the foregoing table that the total amount of expenditure on sidewalks in the four years has been \$35,894.70, which if expended where the adjacent estates were of enough value would have brought back into our treasury from betterment assessments \$17,947.35. Whereas, in fact, it brought only \$12,446.41 or \$5,500 less than had been originally counted on. Only in this year just past has the ratio of assessment to the cost of construction approximated to the 50 per cent. expected, being a trifle over 44 per cent., while for the year 1888 it was only 33 8-10 per cent.; 1887, 32 per cent., and for 1886, 35 1-10 per cent. This is the result of building expensive sidewalks in many cases in localities where the abutting property was not of sufficient value for the assessment upon it to pay a reasonable percentage of the cost, such as Williams avenue where the cost was \$1,625.56 and the assessment only \$386.14 or 23 7-10 per cent.; Beacon street where the cost was \$1,761.55, and the assessment \$501.97 or 28 1-2 per cent.; Perkins avenue where the cost was \$638.45 and the assessment \$190, or 30 per cent.; Business street, where the cost was \$2,137.98 and the assessment \$655.32 or 30 6-10 per cent.

Indeed, had it not been for such localities as Oak street, Maple street, Webster street and portions of River street and Gordon avenue and the like, where the assessed property paid from 45 to 50 per cent. of the cost, the percentage for the four years would have fallen considerably below its present poor average of 34 7-10 per cent.

In the present financial condition of the town that policy is at least questionable which looks to expending so much money on streets which cannot or do not give greater returns for the outlay. We believe that there are many localities yet unprovided with sidewalks where the

residents would cheerfully consent to pay 50 per cent. of the cost of concrete irrespective of the assessed valuation, and such should be the places where such walks should be made. Where the value of the property or the disposition of the residents is such that a fair proportion of the cost of concrete cannot be recovered, then the sidewalks should be constructed in such a manner and of such material that an assessment of one per cent. on the value of the adjacent property will at least approximate to 50 per cent. of their cost. And this is equitable, for the more valuable property not only pays one-half the cost of its sidewalks but by reason of its higher value has paid or will pay a larger portion of the net cost of all the sidewalks.

Moreover, it seems to us that our municipal corporation should be governed by the same considerations which control the acts of other corporations and individuals, should profit by the lessons which the past teaches, and should promptly rectify mistakes and discard errors which are plainly shown by its costly experience. We may add that Newton and other like places put in no such sidewalks as ours except when the abutters agree to pay 50 per cent. of their cost. Looking back again over the last four years, we find that there was expended for streets and sidewalks in 1886, \$32,272.04; in 1887, \$26,361.89.; in 1888, \$44,590.34; and in 1889, including \$261.55 for work done last year, \$12,254.91; or in the aggregate \$115,479.18.

Deducting from this the total above shown as expended on sidewalks, \$35,894.70, there is left \$79,584.48 as the amount spent in the four years on the roadways alone, enough to construct about nine miles of such a road as we have this year built through the centre of the town on portions of River street and Fairmount avenue; a street which, it is safe to say, has some durability and will

probably need no repair during such time as will be required to construct in the same manner the other important avenues of travel in our town, if we adopt the policy of making such streets instead of carting mud and fine sand upon our ways to be washed off by the first rain storm, as has been done in the past. We may be pardoned for calling especial attention to the fact that while nearly \$45,000 were used up last year on our sidewalks and highways we have this year carried the same through on about \$12,000, including all that we have received from betterments.

The town has in the last four years expended \$486,347.04, made up of \$420,347.04 raised by taxation and \$66,000 borrowed. This year the tax levy was \$118,000 and \$6,000 has been borrowed, making the amount for expenditure \$124,000. If there be deducted from this the amount used for payment of debt and interest, \$18,780, for deficiencies of last year, \$2,800, and for money spent last year, \$9,665.11, or in all, \$31,245.11, there is left the sum of \$92,754.89 as the actual cost of the various departments of the town government, which at the valuation of last year would require a tax of \$13.50 on \$1,000. When we consider that with this equivalent of a tax rate of \$13.50 we have been able to expend \$12,000 on streets and sidewalks, make a substantial addition to our High-School building, purchase a stone-crusher with all its necessary equipments, and every portion of our town government has cared well for all the trusts confided to it, we find ample ground for taking a bright view of the financial condition of our town in the future, if a judicious policy is steadily maintained. And this is not difficult to do. Let us look at our town debt and the future payments to be made on it, which are—

In 1890,	principal and interest,	\$19,740;
1891,	“ “ “	19,440;
1892,	“ “ “	19,140;
1893,	“ “ “	18,840;
1894,	“ “ “	18,540;
1895,	“ “ “	17,740;
1896,	“ “ “	6,480;
1897,	“ “ “	4,240;
1898,	“ “ “	2,080.

Thus we see that in 1895 the last heavy payment on account of debt will be made; that then this debt, which now hangs like a mill-stone around our necks and adds nearly \$20,000 to our yearly taxes, will be practically paid off. Such being the case, it seems that we have only to stand sturdily for a conservative, business-like policy for our town to reap substantial rewards in the near future. We should bear, with whatever patience we can, for the next few years taxes to the amount which we are now paying, that we may keep our town abreast with the private spirit and enterprise which is so rapidly building it up and carefully avoid doing anything from a mistaken economy which will tend to retard in the slightest degree any enterprise calculated to make our town attractive to its citizens and to those who may come this way with a view to settling amongst us. We think such a policy can be carried out with a tax rate of from \$15 to \$16 per \$1,000 till our debt is substantially paid in 1895, after which we ought to be able on a tax rate of \$13 to \$14 per \$1,000 to conduct our town affairs in a very liberal manner.

Such a rate will not be large enough to debar or discourage capital from seeking a home among us, and this view of the future rate is very conservative. If we were disposed to indulge in a speculative view we should say that the probable increase of property will by that time

increase our valuation so that \$12 per \$1,000 will provide amply for all our needs. We present these thoughts to you, fellow-citizens, hoping that they will invite your careful consideration, and lead you to form a firm resolution to favor no more town debt till its present indebtedness is all cleared off.

APPROPRIATIONS FOR NEXT YEAR.

We have thought that it would be a help to you in considering the appropriations for next year if we expressed our judgment as to what will be necessary, assuming that the School Committee will ask for the same as in 1889.

We therefore present the following columns, one showing the appropriations made for 1889, the other indicating what seems desirable for 1890.

	SCHOOLS.	1889.	1890.
Salaries, janitors and fuel,	\$26,500 00		
Evening and drawing schools,	500 00		
Text books and supplies,	2,600 00		
Incidentals,	2,800 00		
	<hr/>	\$32,400 00	\$32,400 00
DEBT AND INTEREST.			
Schoolhouse bond maturing,	\$ 500 00		500 00
Permanent improvement bonds maturing,	6,000 00		7,000 00
Note for appropriations made in 1888,	9,665 11		
Interest,	9,500 00		9,500 00
Sinking Fund,	3,000 00		3,000 00
	<hr/>	\$28,665 11	
Public Library, current expenses,		1,850 00	1,850 00
Fire Hydrant service,		5,100 00	5,100 00
Street lights,		7,000 00	7,000 00
Fire Department,		4,000 00	4,000 00
Support of Poor,		4,000 00	4,000 00
Police,		3,000 00	4,000 00
Salaries of Town Officers,		2,825 00	3,325 00
Incidentals,		6,500 00	6,500 00
Highways, current expenses,		5,000 00	4,000 00
Highways, permanent improvements,			10,000 00
Deficiencies of 1888,		2,593 69	

Board of Health,	\$500 00	\$500 00
Stone crusher,	2,000 00	
Post 121, Grand Army of the Republic.	150 00	150 00
As appropriated March 28, 1889.	\$105,583 80	\$102,825 00
State and county tax, as paid in 1889.	11,041 19	11,041 19
	\$116,624 99	\$113,866 19

If the amounts suggested for 1890 are adopted by you the tax rate will be about \$15.50 per \$1,000.

In closing this somewhat extended report, for which we shall offer no apology as we have devoted it neither to magnifying our own services nor vilifying the acts or motives of others, but in attempting to place before you certain knowledge which our official position has given us opportunity to acquire, we can say that harmony in every particular has prevailed in our Board and that in all that has been done by us the individual has disappeared in the whole. While, in the early part of our term, sections of our highways were assigned to each of us as his especial care, we have never forgotten that the whole of our town had a claim upon us. It should be gratifying to everyone to be selected by his fellow-citizens for a position of trust; it is more gratifying to the conscientious official to know that his labors are closely watched by those whom he is serving. Apathy, which often springs from over-confidence, is more disheartening to the public servant, as it is more dangerous to the public weal, than all the wiles of the corner or saloon politician, for it deprives him of that strength which is essential to the best administration of office.

ROBERT BLEAKIE,
 AMOS H. BRAINARD,
 ISAAC J. BROWN,
 STEPHEN B. BALKAM,
 Selectmen.

REPORT OF THE BOARD OF HEALTH.

The duties of this Board appear to be substantially of the same character each year, and are, for the most part, defined by existing laws. We have attempted to perform these duties with as little friction and inconvenience to the public as possible, and yet with a due regard to the preservation of the public health.

There have been instances of the usual contagious diseases in the town during the year, but with the exception of deaths from pneumonia and diphtheria, the mortality has not been heavy as will appear from the following table of cases reported to us. For the year ending January 31, 1890, there have been reported to the Board the following cases of contagious diseases:

Diphtheria,	42 cases	with	6 deaths.
Scarlet Fever,	4 "	"	0 "
Typhoid Fever,	10 "	"	2 "
Membraneous Croup,	1 case	"	1 death.
Measles,	170 cases	"	1 death.

Against

Diphtheria,	21 cases	with	1 death.
Scarlet Fever,	36 "	"	1 "
Typhoid Fever,	15 "	"	2 deaths.
Membraneous Croup,	1 case	"	0 "
Measles,	3 cases	"	0 "

for the year 1888.

We have caused placards to be put upon all houses in which were such cases of a dangerous character.

On account of the unsanitary condition of the premises from bad water and defective drainage we have

ordered four houses to be vacated, to so remain until their owners should make such changes in the sanitary arrangements as should meet with the approval of our Board. We have also in many cases discontinued the use of impure well water and caused the houses to be supplied with aqueduct water. We have issued ten permits for the keeping of swine, subject to the rules and regulations of our Board.

We have had a considerable number of petitions and applications to interfere in cases of wet, spongy and malarious lands. In the case of such lands near the O. C. R. R. station and Green street we caused a drain to be laid from the above station to Central Park avenue in the rear of Green street, connecting with Mr. Bleakie's drain. We put in a blind drain under Green street, between the houses owned by Messrs. Fairbairn and Zimmermann to connect with the drain of the O. C. R. R. These works cost \$475.48, and we adjudged that no part of expense ought to be borne by land owners or abutters.

We adjudged that the low land lying east of the O. C. R. R. station and owned by the Real Estate and Building Co. should be drained and filled at the owners' expense. It has been drained and the filling begun.

We caused "Dutch Gap Canal" to be cleaned out at a cost to the town of \$30.

We have had hearings in regard to the bad drainage of Pierce street and vicinity, and in regard to the stagnant pool in the rear of the premises of Gen. Carrington on East River street, but deferred action as our appropriation had been exhausted by the work above described. These places should receive the early and active attention of the next Board.

The question of the disposal of swill and house garbage has been one which has given us considerable trouble.

The experiment of having it removed for its value by different parties had been tried in previous years and had proved unsatisfactory to all concerned. We began by having the swill collected and removed by our agent at a fixed daily compensation; this to be sold and the proceeds turned over to the Board. But there were continual disputes arising between our agent and the various purchasers as to the value and amounts taken, and the net receipts were trifling.

Learning also that such receipts should be carried into the town treasury and then would not be subject to our drafts, we thought it wise to let one hand wash the other, as far as possible, and finally contracted with Mr. Frank Hukin to gather up and carry away the swill for \$2.50 per day and to allow on his bill for the swill at the rate of \$3 per week.

Under this arrangement Mr. Hukin has passed to the credit of the town \$59, and we have turned into the treasury \$10 collected for swill previously sold. We understand that some small sums collected in the same way were expended by the Chairman of the Board in purchase of disinfectants, etc., which were not reported to the full Board. Mr. Downes' critical condition at the present time, resulting from his serious illness, makes it impossible for us to get particulars from him.*

We think the plan at last settled upon about the swill a good one for the town and satisfactory to citizens, and recommend them to put on another team.

From this year's experience we think that a larger

* Before the above report was in print — on Feb. 8th — Mr. Downes succumbed to his disease and passed away. He had been a member of the Board of Health for a number of years, and his associates reposed in him that confidence which was shown by the public in his repeated re-election.

appropriation for next year should be made for the Board of Health. We have been obliged to contract bills to the amount of \$680.83 in excess of our appropriation.

These we have approved and passed to the selectmen to be paid from the incidental appropriation. This report will show how many have been paid and what they are for. It requires a considerable sum annually to pay for the printing required by existing laws — such as the rules and regulations, reports of contagious diseases, notices, vaccination blanks and others — to which was added this year general advertising of swill regulations, order book, etc.

It is gratifying to observe that the jealousy and hostility toward the Board of Health, which once existed, has disappeared, or is confined to a few individuals; the public has learned to recognize and appreciate the usefulness and beneficence of acts which have, for their sole aim, the protection of the public health. The following rules and regulations were adopted for the current year:

PUBLIC STATUTES, CHAPTER 80, SECTION 18.—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth and causes of sickness within its town. Whoever violates any such regulations shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provisions of law this Board makes the following regulations, which will be strictly enforced.

REGULATION 1.—The owner, agent or occupant having the care of any tenement used as a dwelling house, shall furnish the same with sufficient drain, under ground, to carry off the waste water; also with a suitable privy or water closet, sufficient for the accommodation of all those inhabiting the premises. All waste pipes from water closets, sinks, bowls, bath and other set tubs, shall be suitably trapped, and all drains entering cesspools must be made water tight. There should also be a trap in the soil pipe between the house and cesspool and provision made to admit air into said pipe between the house and trap.

REGULATION 2.—All privy vaults shall be so constructed that the inside of the same shall be at least five feet distant from the line of

every adjoining lot or street and shall be provided with a ventilation through the roof; the same shall not be used as cesspools nor receive drainage from the premises; their contents shall not be allowed to leak out or otherwise become offensive.

REGULATION 3.—All waste water shall be so conveyed through sufficient drains under ground to a reservoir sunk under ground as shall be approved by the Board of Health. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within thirty feet of any well or spring, the water of which is used for domestic purposes, must be water tight.

REGULATION 4.—The Board when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition, or if the Board see fit they may require the premises to be vacated and the same shall not be again occupied without the written permission of the Board.

REGULATION 5.—No person shall throw or put into any public place or pond, or running stream, or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

REGULATION 6.—No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

REGULATION 7.—Any person sick with the small-pox or other contagious disease, together with all persons in attendance upon them, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease or in any way come in contact with the inmates of such house, except by permission of the Board.

REGULATION 8.—All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day, or a red light by night.

REGULATION 9.—Whenever the Board of Health shall ascertain that any person is sick with small-pox, scarlet fever, diphtheria, or

any other disease dangerous to the public health, the Board shall at their discretion have full control of said person or premises and shall if they deem proper order the premises vacated.

REGULATION 10.—The bodies of all persons dying of small-pox, scarlet fever, typhus fever or diphtheria, must be immediately disinfected, and placed in a tight coffin, which shall not be reopened. In the above cases no public funeral will be allowed without permission from the Board of Health.

REGULATION 11.—The following cases are considered contagious and dangerous to the public health:—Small-pox, Diphtheria, Scarlet Fever, Measles, and Typhoid Fever.

PUBLIC STATUTES, CHAPTER 80, SECTION 79. — When a physician knows that a person whom he is called to visit is infected with small-pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit for each offence not less than fifty nor more than one hundred dollars.

REGULATION 12.—No person will be permitted to keep any swine within the limits of the town of Hyde Park without a written permit from the Board of Health.

REGULATION 13.—No person shall remove, or carry in or through any of the streets, lanes or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal, (either animal or vegetable) or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

REGULATION 14.—No person shall bury the contents of any cesspool, vault, privy or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

REGULATION 15.—Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park until May 1, 1890.

PUBLIC STATUTES, CHAPTER 252.—In compliance with the requirements of the above chapter of the public statutes, the Board of Health makes the following regulation:

REGULATION 16.—Any person in the town of Hyde Park, who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine) must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment which will be strictly enforced.

REGULATION 17.—All complaints in relation to nuisances and sources of filth, injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said

nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health will proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws and the sanitary rules of other large towns.

JOHN C. LINCOLN, M. D., Secretary,

J. P. BILLS, M. D.

Of Board of Health.

REPORT OF THE OVERSEERS OF POOR.

TO THE CITIZENS OF HYDE PARK:

For the first time since the inauguration of our town a majority only of the overseers of the poor append their signatures to the annual report of the department under their charge. Our late associate, Mr. Joel F. Goodwin, was first elected a member of this board in 1874, and since then, with the exception of two years, '76, '77, has served continuously until removed by death. Of his excellent qualities, both of judgment and kindness of heart, it is not, perhaps, for us to speak. Suffice it to say, that while he was ever mindful that he must be just before he was generous, the deserving poor found in him a kind friend, and at the same time he jealously guarded the interests of the town.

During the past year there has been no great business depression, or any special cause for destitution, yet through the influences of misfortune, attended in many cases by those of intemperance with its far-reaching evil results, the number of applicants for aid is largely in excess of that of many years. Under the present laws, with the lapse of time, the increase of paupers consequent upon the natural growth of the town will become more apparent.

In the detailed statement hereto appended there appears an item which may need some explanation. A large part of "temporary aid" should be charged to "military aid" which does not properly come under the direction of this department. As there was no special

appropriation for the purpose, the amount \$255, was drawn from the poor fund, one-half to be refunded by the state. A separate appropriation should be made, as is done in other towns.

We acknowledge the receipt of \$5.00 from Henry B. Terry, Esq., donated by some unknown friend for the purchase of Thanksgiving dinners for the deserving poor.

CHARLES LEWIS,

JOHN TERRY,

Majority of Overseers of Poor.

REPORT OF TRUSTEES OF THE PUBLIC LIBRARY.

The circulation of the Library during the past year shows a very slight change from that of the previous year, while the number of books and magazines used in the reading room has greatly increased, owing probably to the improvement in the lighting of the room.

Since the issue of the last supplementary catalogue, nearly 1,700 volumes have been added, making it desirable to print a new supplement, which is now ready for the press. It has also made it necessary to procure several new book cases. These cases occupy all the space available for that purpose in our present quarters, and in the near future the further growth of the Library will demand increased accommodations.

In this connection it may be well to call the attention of the town to the fact that it is possible to furnish the library and reading room with such accommodations as are desirable with little or no increase in the annual expense. The town already pays as rent for the rooms now used the interest on \$10,000; the trustees have a fund of over \$5,000 available for this purpose. The two sums would erect a building which would not only supply all the room needed, but at the same time by its external beauty, be a source of pride and gratification to all our citizens.

The proportion of fiction added during the present year has been somewhat less than in previous years, and the trustees would call especial attention to the works on

American Biography, Natural History and Geography; and to the French and German books which have been recently received. The aim of the Board in the purchase of books has been, so far as possible, to furnish instruction to the readers, and, at the very least, harmless recreation. If in spite of their care any books of doubtful character find their way into the Library, the Trustees will be glad to have their attention called to such books, that they may be withdrawn from circulation.

A blank book for queries and answers was placed on the Librarian's desk some time since, but its use thus far has not been very extensive. It is hoped, however, that when its advantages are better understood, it will serve as the vehicle of much useful information.

By virtue of a recent statute of the Commonwealth, the Town Treasurer becomes ex-officio the treasurer of the Library Board. This will account for the fact that Mr. Gridley, who has served the Board so long and so acceptably in this capacity, is no longer its treasurer.

An unusually large number of books have been given to the library as will appear by the following list.

Washington, 18 volumes.

Washington, 13 pamphlets.

Commonwealth of Mass., 5 volumes.

City of Boston, 1 volume.

Mrs. E. H. Webster, 1 volume.

William Ganzhorn, 14 volumes.

Hubert Stone, 11 volumes.

F. B. Webster, 1 volume.

Andrew Washburn, U. S. Census Report,

26 volumes.

For the Trustees,

HENRY B. MINER, Chairman.

POLICE REPORT.

TO THE BOARD OF SELECTMEN:

Gentlemen: The following is a record of arrests made during the year ending February 1st, 1890, classified as follows:

Drunkenness,	104
Assault,	17
Vagrants,	14
Larceny,	8
Violations of liquor law.	4
Neglected children,	3
Murder,	1
Insane persons committed to hospitals,	5
Cruelty to animals.	1
Breaking, entering and larceny,	2
Breaking glass,	1
Drunkenness, third offence,	1
Common drunkard,	3
Disturbance religious worship,	1
Lewdness,	1
Violation town by-law,	2
Selling adulterated milk,	1
Evading car fare,	1
	170

MISCELLANEOUS WORK.

Persons arrested and turned over to officers of other places,	5
Stolen property recovered,	\$325.00
Stores found open at night,	15
Cases investigated without arrest,	127
Search warrants for intoxicating liquor,	4
Defects in streets and sidewalks reported,	23
Travellers lodged in station house over night and discharged the following day.	2,549

CHARLES E. JENNEY,
Chief of Police and Keeper of Lockup.

ENGINEERS' REPORT.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen: We herewith present to you our annual report for the year ending January 31st, 1890, together with the record of fires and losses. Some changes have been made by us which we feel are for the better. Soon after our appointment we issued orders that on first alarms of fire only one Hose Company, Chemical, and Hook & Ladder should respond and other companies to remain at quarters twenty minutes for a second alarm, instead of running all companies as before, the two Hose companies at Engine house to alternate monthly on first alarms. Electric lights have been put in the Engine house and are so arranged that the whole lower floor can be lighted the moment an alarm sounds, being much quicker than the old method and doing away with oil lamps. In fact everything has been done to facilitate the getting of apparatus to fires as quickly as possible. The need of a better alarm was brought to our attention and we finally decided to purchase a Crosby Steam Fire alarm whistle which by permission of the Electric Light and Power Co. we placed on their Building, they agreeing to blow the same for fires.

We have inspected the hose now in use and find that there should be at least a thousand dollars spent for new hose as soon as practicable, as about 2000 feet now in use is over eight years old and is fast going out of use through age, which leaves us with about 1700 feet that is good and dependable.

HYDRANTS.

This branch of our Fire Department requires prompt action, we think, with a view to giving to the property created here in the last few years that protection which suitable hydrant service alone can give.

When the water works were constructed five years ago and when the town contracted for 100 hydrants the whole scope of the water system as then contemplated was on 14 miles of mains and those 100 hydrants were placed thereon. But our town has grown since then and the water works have kept pace with this growth until there are now 24 miles of mains, the 10 miles additional having scarcely a hydrant upon them. We earnestly recommend to the town to take immediate measures to have from 50 to 60 more hydrants, provided a contract can be made for the same, as will not materially increase the present cost of our hydrant service.

An ample hydrant service will frequently remove the necessity of long lines of hose and will thus save much expense in wear and tear of same, and, moreover, the shorter the lines of hose the more quickly can streams of water be put upon a fire and the more effective will those streams be.

FIRE ALARM.

This branch of our department we found in need of some attention and at request of Mr. Hawley, steward of engine house, who has had the management of this branch, he was furnished with the necessary tools at a very small expense, and during the year has made many improvements in the same, saving the town considerable expense of hiring Boston parties as heretofore. The line has been put into two circuits so that in case of an accident on the line a part of it remains in use, instead of rendering the whole line useless until repaired as before, and here

we will say that the fire alarm has become a very important factor in the fire department, enabling us to get alarms as soon as fires are discovered and saving a good deal of valuable time. We earnestly recommend the purchase of eight more alarm boxes in order to give the same protection to portions of our town that are enjoyed by those that have them. We have now about 14 miles of wire on two circuits and 10 fire alarm boxes, two 15 inch tapper gongs, one at engine house and one at electric light station, one tower striker on M. E. church bell, one tapper at Corson's stable, also, tappers at houses of Chief Hilton and Assistant Engineer Sweet, also, in houses of four members of department, at Balkam's lumber yard a tapper and button, the current being furnished from a 56 cell battery located in basement of engine house and under care of E. A. Hawley, steward of engine house. The fire alarm is now in good order and with the same care and attention it has had during the past year, we believe it will do all that is claimed for it. We would urge the town to extend the system so as to give all parts of our town the protection a good fire alarm affords. The town has been very fortunate in having but few fires as the following list of alarms will show.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY, Town Clerk.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A.M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present voting.

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1.—The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2.—All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3.—On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him; and he shall on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3.—Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit, shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow-balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tri-cycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen, place or cause to be placed, or suffer to remain within the limits

of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or projection from any house or building, or upon any wall or fence or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way

in this town, without permission from the selectmen or the Hyde Park Water Company.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANTS.

1.—This town hereby avails itself of the several provisions of the statutes of this commonwealth, now in force, relating to habitual truants and absentees from school.

2.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any house of reformation which has or may hereafter be established by the County Commissioners of the County of Norfolk, or to any place provided by this town within its limits, for confinement, instruction and discipline.

3.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

4.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant, or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

5.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

6.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

7.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep on a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come to his possession; he shall as soon as practicable, after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES.

1.—It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2.—All chimneys in wooden building shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3.—In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4.—All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5.—Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6.—No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

7.—No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8.—No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires: and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire-frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should

be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court of any Justice thereof.

Commonwealth of Massachusetts. Norfolk, SS.

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts, Norfolk, SS.

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.
The foregoing By-laws are hereby approved.

By the Court,

ERASTUS WORTHINGTON, *Clerk.*

True copies. Attest:

TWENTY-SECOND ANNUAL REPORT
OF THE
SCHOOL COMMITTEE,
OF THE
TOWN OF HYDE PARK,
FOR
THE SCHOOL YEAR

ENDING JANUARY 31, 1890.

HYDE PARK:
PRESS OF THE HYDE PARK TIMES.
1890.

SCHOOL COMMITTEE, 1889-90.

CHARLES G. CHICK, Chairman.

RICHARD M. JOHNSON, Secretary.

EDMUND DAVIS.

ANDREW WASHBURN.

LOUISE M. WOOD.

*BENJAMIN C. VOSE.

EDWARD S. HATHAWAY.

* Died before taking his seat.

REPORT OF THE SCHOOL COMMITTEE.

TO THE CITIZENS OF HYDE PARK:

The committee having charge of the public schools would respectfully submit the following report touching the matters placed in their charge by your confidence under the laws of the Commonwealth.

ORGANIZATION OF THE COMMITTEE.

The committee was called together shortly after the March election and organized by choice of Charles G. Chick, chairman, and Richard M. Johnson, secretary. The rules and regulations of the previous board were then adopted and sub-committees appointed by the chairman and approved by the committee as required by the rules.

SUB-COMMITTEES.

High School, B. C. Vose, Edmund Davis, A. Washburn.

Grew School, Edmund Davis, Louise M. Wood.

Fairmount School, A. Washburn, R. M. Johnson.

Greenwood School, R. M. Johnson, C. G. Chick.

Damon School, C. G. Chick, B. C. Vose.

Butler School, Louise M. Wood.

Evening Schools, Edmund Davis, B. C. Vose.

Industrial School, A. Washburn, Louise M. Wood.

At the time of organization Mr. Vose was unable to be present by reason of the sickness which soon terminated fatally. The committee upon receiving news of his death held a special meeting, delegated the chairman and secretary to attend the funeral services, and appointed Mr. Davis and Mrs. Wood a committee to prepare and

present resolutions. This committee submitted the following, which were adopted by a unanimous vote of the board and entered upon our records.

Resolved, That we mourn with deep sorrow the death of Benj. C. Vose, a valued member of this board.

Resolved, That his large experience as a successful teacher in former years, his keen insight into and intelligent appreciation of the needs of our schools, and his sound judgment made him a wise and safe counsellor in all matters which came up for deliberation in the board.

Resolved. That we recall with pride and gratitude his fearlessness in the discharge of duty, his careful and painstaking labors in whatever was assigned him to do, his readiness to analyze and weigh the merits of any subject under discussion, and the manliness and courage with which he maintained his convictions at all times and at whatever cost.

Resolved, That in his death we lose a genial and pleasant associate, a steadfast friend, an able and earnest worker in the cause of education, a public spirited citizen and an honest, pure-minded man.

Resolved, That with this realizing sense of our own loss we can and do most deeply and tenderly sympathize with those nearest and dearest to him in the far greater loss which they have sustained.

Resolved. That these resolutions be entered at length upon the records of the board and a copy transmitted to the family of our late associate.

The vacancy caused by the death of Mr. Vose was subsequently filled in convention with the selectmen by the choice of Edward S. Hathaway.

Mr. Hathaway as a new member did not wish to act as chairman of the High school committee but preferred an assignment to the Greenwood school. Mr. Johnson at once resigned as chairman of the Greenwood and was appointed to that position upon the High school committee, and Mr. Hathaway was thereupon appointed to the chairmanship of the Greenwood school and to all other positions assigned to Mr. Vose.

SCHOOL ORGANIZATION AND STATISTICS.

HIGH SCHOOL.

Mr. John F. Eliot till Oct. 10, 1889. Mr. Jere. M. Hill since Oct. 15, 1889, principals; Mr. Emerson Rice, sub-master; Miss Fanny G. Merrick till July, 1889. Miss Carrie B. Morse and Mr. G. F. Eldridge since Oct. 15, 1889, assistants.

Graduates (four years' course).—Geo. A. Cannon, George P. Elwell, Mary S. Bent, Leon O. Glover, George T. Hanchett, Lauretta Lockwood, Frances E. McKenna, Eugenia C. Sears, Julia A. Shea, Winifred Tuckerman, Walter E. C. Worth.

(Two years' course).—Geo. F. Elliott, John L. Frame, Katie E. Quinn.

Statistics:

Whole number of different pupils,	193
Average membership,	131
Average attendance,	122
Per cent. of attendance,	.93
Amount of teachers' salaries,	\$3,949 00
" of janitor's salary,	165 00
" expended for fuel,	128 00
" expended for incidentals,	141 37
" expended from special appropriation,	58 63

BUTLER SCHOOL.

Miss Grace B. Gidney, teacher.

Statistics:

Whole number of different pupils,	44
Average membership,	30
Average attendance,	27
Per cent. of attendance,	89.7
Amount expended for teacher's salary,	\$437 50
" " janitor's salary,	65 00
" " fuel,	33 00
" " incidentals,	45 49

DAMON SCHOOL.

Mr. Edw. W. Cross till July, 1889. Mr. S. S. Crocker, Sept. and Oct. 1889. Mr. J. S. Manter since Oct. 1889, masters; Mrs. Lizzie de Senancour, Miss Julia E. Donovan, Miss Louise L. Sears till July, 1889, Miss Mary D. Pollard since Sept. 1, 1889, teachers.

Graduates.—Alice Lawrence, Mary Conroy, Michael McGuire, Willie Burns, Hugh Kennedy, Patrick Cogan, Dennis Burns, Ella Stevens, Thomas McCarty.

Statistics:

GREW SCHOOL.

Mr. Franklin H. Dean, master; Misses Isabella P. Noble, Mary A. Winslow, Margaret A. Hanlon, Margaret E. Bertram, Fanny J. Gushee, Harriet Gordon, Fannie E. Harlow, Agnes J. Campbell, Nellie M. Edson, Nellie M. Howes, Bessie C. Sparrell, teachers.

Graduates.—Cora L. Amback, William J. Bleakie, Arthur T. Brown, Florence Bullard, Walter L. Cherrington, Walter M. Church, Earle W. Cochrane, Nellie Cowperthwaite, Lillian E. Drew, Frank M. Fellows, George F. Fellows, Katherine Ford, Charles A. Gould, Lucius F. Hall, Samuel C. Hill, Alexander R. Holway, Ernest A. James, Mildred B. Leonard, Estelle F. Lyons, Lillian J. McDonough, May C. McDonough, Benjamin McDowell, Lizzie L. McKay, Grace L. Morrison, Harriet J. Morrison, Freelon E. Newell, Otto A. Peterson. John M. L. Ramseyer, Patrick F. Rooney, Lydia A. Scott, Hattie B. Sears, Julia E. Sweeney, Helen G. Sweet, Louise A. Thullen, Charles A. Towle, Willard B. Vose, Annette M. Wood and Louise T. Wood.

Statistics:

Whole number of different pupils,	473
Average membership,	415
Average attendance,	376
Per cent. of attendance,	99.6
Amount of teachers' salaries,	\$6,433 95
" of janitors' salaries,	200 00
" expended for fuel,	393 50
" of incidentals,	879 25

In addition to the amounts which appear in the foregoing statistics as having been expended in school incidentals at the respective school buildings, a further sum of \$460.30 has been expended in incidentals of such a nature that they affect all of the schools alike and cannot be readily apportioned to the several schools.

APPROPRIATIONS AND EXPENDITURES.

At the annual meeting in March the town appropriated for its schools the following amounts:

For salaries, janitors and fuel,	\$26,500 00	
text books and supplies,	2,600 00	
incidentals,	2,800 00	
evening schools,	500 00	
	<u> </u>	\$32,400 00

Unexpended balance from last year —

Salaries, janitors and fuel,	\$261 43	
Text books and supplies,	5 77	
Incidentals,	1 63	
Evening schools,	131 52	
Industrial schools,	146 26	
Repairs of High School building,	58 63	
	<u> </u>	\$605 24

The town has thus placed at our disposal the gross sum of \$33,005.24 for school purposes. In December, at our request, \$500 was transferred from the appropriation for text books and supplies to the account of school incidentals.

The following expenditures have been made:

Teachers' salaries,	\$23,530 09	
Music teachers,	600 00	
Janitors,	1,123 00	
Fuel,	1,364 50	
Evening schools,	514 00	
Text books and supplies,	2,001 98	
Incidentals,	3,296 92	
Industrial schools,	126 15	
On High School building (special appro. bal.),	58 63	
	<u> </u>	\$32,615 27
Balance unexpended,		\$389 97

The changes made at the High school building during the year largely increased the expenditures from the incidental fund. New seats and desks were purchased for the new room, the walks and terrace were concreted, and various items of minor importance caused an outlay of about \$600, and so exhausted the incidental appropriation that the transfer above stated became necessary. The bills of this department are substantially paid to the end of the financial year, and as will be seen small unexpended balances remain. The large amount paid for text books and supplies covers outstanding bills of last year to the amount of several hundred dollars. We have on hand the sum of \$42.47 of Mass. school fund, and have used during the year \$33.75 for reference books. It will be seen by comparison that your schools have been carried on at a cost of about \$2500 less than last year. In making this statement the cost of new buildings is not included.

TEACHERS.

There have been but few changes in the corps of teachers during the year, especially is this true in the grammar and primary grades. The reports of the local committees herewith submitted will show the particular changes which have occurred.

It is of great importance to our schools that good teachers be secured and retained as far as possible. In the exercise of their discretion in the choice of teachers lies the most important duty of the committee, and the school work will very soon show whether this duty has been wisely performed. With normal schools and training schools to fit teachers for their work it is possible to secure competent instructors well equipped for their work, but the selection must be care-

fully made as it is true that a diploma is not always conclusive proof that its holder will make a successful teacher.

Two years ago a change was made in the schedule of salaries with a view to holding in your employ the teachers of the higher grades, and this year the salaries of the masters of the grammar schools and lady teachers who had been employed by the town for eight or more consecutive years were increased. We hope these changes will enable us to keep good talent in the important grades of the course.

It has been found desirable during the year to employ competent lady assistants in the master's rooms at the Fairmount and Greenwood schools. These buildings are now fully occupied, and the care of the masters consequently increased. It seems well for the master in charge to have a general oversight of the work in the various grades, and to extend his personal influence to all the pupils, for whose conduct and advancement he is held responsible.

An assistant has been provided at the Grew school for several years and the value of the system there would not be questioned. We do not hesitate to say that with this addition to the teaching force better results will be possible in our large schools.

COURSE OF STUDY.

Very few changes have been made during the year. The course in physiology and hygiene has been modified to some extent, and some new text books adopted to meet the change. In this connection it seems proper to say that it is found almost if not quite impossible to cover the branches required by law in a satisfactory manner in our course of eight years. New requirements being made tend to take the time and attention from a number of

branches which formerly filled the greater part of the school curriculum. The result to those who have closely watched our schools for a number of years is apparent. The tendency is to know something of a large number of branches rather than to have a complete knowledge of a few. We are firmly of the opinion that the same standard of scholarship is not to be expected in each of the required subjects unless the time of the course is extended.

SUPPLEMENTAL READING.

A sub-committee (Mr. Washburn and Mrs. Wood) was appointed last spring to act with the masters upon this matter, as the old books had long been in use and a change seemed desirable. This Committee made a careful examination of the many publications now in the market, and reported in favor of an entire change of books and recommended several series of readers and other publications for use in the new course. These recommendations were adopted in full committee, and the new books were placed in the schools at the beginning of this school year. These books contain much general information and are especially adapted for sight reading. The change meets the approval of teachers and pupils.

MUSIC.

The instruction in music has continued in charge of Mr. H. J. Whittemore assisted by his daughter Miss Mary E. Whittemore. In order that the work might be improved, if possible, a special committee consisting of Mr. Hathaway and Mrs. Wood was appointed to confer with the instructors and report what, if any, change in the course or methods seemed desirable. Some new charts have been adopted which we hope will prove beneficial to the course.

SEWING.

Last year sewing was introduced, and one lesson each week given to the girls of the fifth and sixth classes. This has been changed so that the lessons are now given to the girls of the eighth and ninth grades. The time of the fifth and sixth grades being so much occupied with other important work it seemed best to relieve them of this matter and place it earlier in the course. Two teachers are employed, one being assigned to the Grew and Damon, and the other to the Greenwood and Fairmount schools.

ATTENDANCE.

It has been the policy of the committee to keep the school buildings clean, and to improve the sanitary condition as much as possible. Disinfectants are furnished and freely used in the school rooms and outbuildings. Care has been taken to comply strictly with the laws for the prevention of the spread of contagious diseases. It is with pleasure that we say that the schools have been substantially free from these diseases during the year. The measles prevailed to some extent in the Grew and Greenwood districts last spring, and slightly affected the attendance. The High school suffered some from this cause. An evil exists at the Damon schools and affects the average attendance materially. It was referred to last year by the local committee. It arises from the fact that pupils enter and enroll as members of the school, attend for a few days or weeks, then are absent for a time, and as we are informed are in attendance at private schools; this not only reduces the average attendance but retards the work of the individual pupil and affects the whole class. The tables annexed to this report show the per cents. of attendance for the year.

TRUANCY.

The Committee has received notice from the County Commissioners that a county truant school has been established at Walpole. This will meet a long-felt want, as pupils who have an inclination to play truant will be restrained by the knowledge that the town now has a place for their commitment. Heretofore it has been impossible to enforce the law because of the indisposition of magistrates to send children to industrial schools or penal institutions for this cause.

ORDERS OF INSPECTION OF PUBLIC BUILDINGS.

Sometime in February of last year orders were received from Lemuel Pópe of the State Police and Deputy for this district, requiring very material and costly changes to be made in our school buildings. These changes were ordered upon the assumption by the inspectors that the means of egress were insufficient in case of fire. The orders were similar as touching each building. The board of last year caused some estimates to be made as to the cost of the changes, and found the full expense to the town would be about eight thousand dollars. In view of the great expense and the fact that the Committee after careful investigation believed many of these changes unnecessary and some of them detrimental to the very purposes for which they were ordered, this committee did not feel justified in making the outlay without having the whole matter considered by the town. The selectmen at our request brought this subject before you at a town meeting, and its further consideration was placed in the hands of a special committee. We are informed that the orders have been materially modified and largely complied with as modified.

At the time of the above orders others were received

by the Committee from the same source, requiring better means of ventilation for all of the school buildings but no system was suggested in the orders, nor would the state authorities recommend any system and assure us that when put in use its result would be satisfactory. These orders took the same course of those first named, and since the reference of these matters to a special committee this board has take no action in the premises. We feel the town has placed the matters in the care of a competent committee, and their action will fully appear when they shall report to the town.

PRESENTS.

It has been the custom for the school children to collect money among themselves for the purpose of making presents to their respective teachers at the close of the school year and sometimes at Christmas. This may seem a commendable thing, and evidence of that appreciation desirable on the part of the children for their teachers. Our public schools are for all classes and conditions, the rich and the poor are upon an equal here, and all things which serve to make distinctions or to create ill feelings between pupils should be discouraged. These collections often compel contributions from those who can ill afford them, because to refuse may place a child at disadvantage among his classmates. We believe that no child in our public schools should be put in a position where he will be made to feel or apologize for the pecuniary condition of himself or his parents. In this view of the matter the following rule has been adopted during the year:

“That no collections or subscriptions of money shall be taken in the public schools for the purpose of making presents to teachers or other persons without special permission from the School Board.”

FLAGS.

During the year public-spirited citizens have presented your several school buildings with large and beautiful flags of our national design. It is with pleasure that we here acknowledge the same, and we believe that we fully represent the sentiment of our fellow citizens when we extend the thanks of our town to the various donors for their gifts. We believe that love of country and a pride in all that stands for it and its institutions lie at the foundation of good citizenship, and that no opportunity should be lost to firmly implant these patriotic ideas in the minds of children of our schools.

From the funds placed at our disposal for the care and improvement of the school property we have provided for each building a suitable staff, from which will hereafter be displayed during the sessions of school, the flag of our country, and we feel certain that the inspiration of these banners will tend to make the coming generation loyal citizens and firm supporters of our free government. If the children are early impressed with that love and reverence for our flag which comes with a full knowledge of what it has cost in the lives and fortunes of their forefathers to establish and maintain its honor and integrity, we feel sure that should occasion hereafter call, these children who assemble each day under its shadow will stand manfully for its defence whenever and wherever assailed.

CONCLUSION.

It has been the aim of your Committee to improve the public schools wherever opportunity offered, and to keep the standard as high as possible. We are well aware that the real results of the work of the year can not be known, for, relating as it does to mental development and formation of character it can not be measured. Time

will only show whether our school training is successful in producing well-trained men and women.

It must not be forgotten that each year finds new pupils for each teacher, nor must we forget that while to outward appearance our schools seem nearly the same each year, yet they are not the same. So it often happens that teachers and methods that have met with marked success one year may prove almost or quite a failure the next year because of changed conditions and relations. The natures of the pupils, their habits of life and thought, their home care and training all enter into this problem and become parts of the final result of their school work.

The school is not a machine shop where all children irrespective of these conditions can be put through the various grades and come out finished alike, and alike capable of the duties of life.

The work of the school must be elastic, touching each child where the need appears, and this need must be watched for and met by the care and ingenuity of the teacher. It is these constantly changing conditions that require expert teachers and that constant vigilance of the Committee that the pupils may at all times have that kind of instruction best suited to them. Nor is the parent excused from his share in this watchfulness, for he should aid the teacher with his confidence, and assist him to rightly understand the characteristics of his child, that the methods of instruction may be properly adapted to his wants.

After all the real test of improvement will be whether our schools are making better citizens than formerly, and not whether the pupils are more expert in the branches of the course. The tendency we admit is to apply the latter rather than the former rule, but the future will hold our schools responsible for the kind of men they are

training without special regard to their expert knowledge in this or that science. We are not to be understood that a good knowledge of the branches required in the schools is not essential, for we maintain to the contrary, and firmly assert that the mental power gained in the complete mastery of our common school course is an important element in the success of the children in after life. While this is held important we are not unmindful that moral and physical culture are not to be neglected or forgotten in the school work. We have spared no effort to have all of the children of the town without regard to class or condition provided with an opportunity for obtaining the care, instruction, and discipline afforded by properly conducted public schools. We hope the future will show that our efforts have been well directed, and that the school work of the year has been in every way successful.

We would not conclude this report without expressing our appreciation of the material aid given by our fellow-citizens, the co-operation of a faithful corps of teachers, and the uniform courtesy of the patrons of the schools, and we cheerfully say that these have been potent factors in whatever success may have attended our labors during the year.

Respectfully submitted,

CHARLES G. CHICK, Chairman.

HYDE PARK, Jan. 27th, 1889.

At the regular meeting of the School Committee, held this day the foregoing report was submitted by the Chairman, and it was voted that the same be adopted as the report of the Committee.

RICHARD M. JOHNSON, Secretary.

SUB-COMMITTEE REPORTS.

HIGH SCHOOL.

Our High school continued till the close of the school year in June under the same instructors as last year and accomplished results fully equal to those of preceding years. With the end of the summer term, however, came important changes in both the corps of teachers and the building.

Owing to the resignation of Mr. Eliot who had for thirteen years so creditably to himself and to the school conducted its career, the Committee were obliged to seek another principal, and placed Jere. M. Hill, M. A., of Bangor, Me., a gentleman of ample scholarship and experience, at the head of the school; Miss Carrie B. Morse of Charlestown was placed in the position made vacant by the resignation of Miss Fanny G. Merrick. Miss Morse has charge of four classes in English and one in Latin, and was highly recommended as an instructor. The large increase in the membership of the school at the beginning of the term in October rendered the employment of an additional teacher imperative, and Mr. Geo. F. Eldridge of the School of Technology, and formerly a graduate of this institution, was placed in charge of two classes in algebra, two in geometry, and one in English, and is doing good work.

The changes in the building made necessary by the growth of the school were planned and conducted by a special committee appointed at a meeting of the town in July, and were begun in the summer vacation, and completed October 15th. The present needs of the school

have been met by the addition of an ell 40 x 70 feet to rear of the main building, giving one large room in the upper and two smaller ones in the lower story, besides dressing rooms, closets, etc., which were much needed. Of the labors of this committee much might be said. In the short time given them and with the very unfavorable weather for building operations, much was accomplished. The new rooms are well arranged, well lighted, tastefully finished, and for the present are ample as to room. The grounds have been much improved, graded and cleared up. The old coat of paint on the main building has given place to a soberer and a more pleasing hue, and everything put in as good condition as the appropriation would allow. One room in the new addition and one in old building are poorly ventilated, but the special committee of the town on ventilation has this matter in hand, and this trouble will, we trust, be speedily remedied. It is a matter of some uncertainty as to whether the single furnace under the new addition will satisfactorily heat that part of the building in zero weather. The mild weather so far this season has been in our favor. It is very probable that another furnace will have to be added before next winter.

The school opened October 15th with 169 scholars, 75 in the entering class, the largest in the history of the school; and although it is now in very much better condition as to accommodations than for some years, the time is not far distant when with the same ratio of increase as this year our present comfortable quarters will be outgrown and larger ones demanded. In all probability the Fall term of 1890 will begin with 200 scholars, and that of 1891 with 230 to 250, and this number is more than the present building will hold with proper regard for sanitary conditions, so that the question of still further accommo-

dations will be before us next year, 1891. This increased demand for a higher education is very gratifying to the Committee, and they earnestly recommend that the scientific department of the course be encouraged by a fair supply of apparatus and material for laboratory work. For about \$500 such articles as are needed could be obtained, and with an extension of this part of the course better facilities would be given towards fitting young men for the demands of active life.

In closing we desire to express the grateful appreciation by both scholars and teachers of the concrete sidewalk laid by the town in front of the school grounds. This improvement in the means of access to the school was a welcome one, and has added much to the comfort of all who have occasion to use it.

RICHARD M. JOHNSON,
EDMUND DAVIS,
ANDREW WASHBURN,
Sub-Committee.

BUTLER SCHOOL.

The little building known as the Butler schoolhouse still shelters daily, under its time-honored roof, two interesting and pleasant primary classes belonging to the Greenwood school. Miss Grace B. Gidney is the teacher in charge, and as I have visited the school from time to time during the year, I have always found the children busy and happy, and the teacher doing steady, faithful work. There is a noticeable spirit of kindness, harmony and good feeling prevailing the school.

LOUISE M. WOOD.

DAMON SCHOOL.

The work at the Damon school is progressing well in view of the changes that have occurred there. The number of pupils remain about as reported last year with a fair average attendance.

The transfer of Mr. Cross to the Fairmount school has of course interfered to some extent with the work of the school. Mr. Cross, having been here for so many years, had a strong hold upon the patrons and pupils of the school and was thoroughly acquainted with the condition and needs of every department.

The full committee not making the transfer until late in August gave us but a short time to fill the vacancy.

Mr. S. S. Crocker, a teacher of long experience with good recommendations, was placed in charge of the school at the beginning of this school year, and remained about one month, when he resigned to accept a business engagement. We do not feel warranted in speaking of the character of his work in view of the shortness of his service in the school. His resignation came at an unfortunate time and made it difficult to find an available teacher with recognized merit for the position.

We corresponded with all masters upon the secretary's list and had personal interviews with several; nearly all were engaged in teaching and did not desire to change.

Mr. J. S. Manter was finally selected, and has been in charge of the school since the last of September. He is a Normal graduate and has had several years of experience in a similar position. So far as we have observed Mr. Manter seems to be doing very creditable work.

Miss Mary D. Pollard, also a Normal graduate and a teacher of experience, was appointed to the vacancy caused by the resignation of Miss Sears. She is a con-

scientious, painstaking teacher, and her work shows the value of special training.

Mrs. Walcott, who has heretofore so kindly made this school an object of her bounty, kindly presented it with a large flag in September. As early as possible a staff was provided, and this school enjoys the distinction of being the first in town to raise a flag.

The school property is in good condition and no extraordinary outlay will be needed the coming year.

CHARLES G. CHICK,

E. S. HATHAWAY,

Local Committee.

FAIRMOUNT SCHOOL.

On account of ill health and to meet suggestions of the committee, Mr. Howard requested leave of absence, which was granted for a year.

Mr. E. W. Cross, for many years in charge of the Damon school, was transferred to the Fairmount school. His intimate knowledge of the school work in our town, and his entire familiarity with the attainments of the pupils and the methods of instruction practised here have operated very favorably in preventing what might otherwise have caused a serious break in the progress of the school. Mr. Cross has fully sustained his previous excellent reputation and the discipline and progress of the school in scholarship deserves special commendation.

The transfer of Miss Howes to the Greenwood school caused a vacancy in the twelfth class, which was filled very satisfactorily by the appointment of Miss A. M. Hood to the position. The other teachers remain the same as last year and continue to fill with good results their various positions.

Instructions in needlework have been limited to a weekly lesson in the eighth and ninth classes. This department has been in charge of Mrs. D. A. Preston. A larger appropriation is desirable to increase the efficiency of our industrial instruction.

During the year the fifth or graduating class has purchased and donated to the school the "Library of Universal Knowledge," 15 volumes octavo. It is intended that this memorial offering to the school shall take the place of the usual present to the master, which has been prohibited by the committee's vote forbidding presents to teachers.

The school has also received the present of a bell and money has been raised for two flags which will be floated over the building as soon as a proper staff can be put in place.

In our administration of affairs the effort has been made to emphasize the ideas, first, that the school exists for the pupils and for the individual pupil, rather than the pupil for the school; second, that the public schools of America must prepare and train the pupils for American citizenship.

Miss H. N. Sands has just been added to the corps of teachers as master's assistant, and many and great advantages are expected both from her direct work in the fifth class and also from the opportunity given Mr. Cross to visit frequently different rooms and carefully supervise the entire work of the school.

Respectfully submitted,

ANDREW WASHBURN,
RICHARD M. JOHNSON,
Committee.

GREENWOOD SCHOOL.

But little has occurred outside the regular routine of school life the past year calling for special comment.

The decease of Mr. Vose early in the school year caused a change in the make-up of the local committee, and Mr. Hathaway was assigned to the chairmanship.

Only one change in teachers has occurred. Miss Alger, teacher of the twelfth class, resigned her position in April, and the vacancy thus created was filled by the transfer of Miss Evelyn S. Howes from the Fairmount school.

The local committee feeling that better work could be done if the master was brought into individual contact with all the classes in the school, which could not be done as long as he was confined exclusively to the teaching of the fifth class, recommended to the full Board the appointment of an assistant for the master's room. This recommendation was unanimously adopted by them and we were fortunate in securing the services of Mrs. Josie T. Reid, a graduate of Farmington Normal school, who comes to us well recommended from Gardner, Mass. Although this plan has been in operation only a short time the advantages from the movement are already being felt, and we are confident that the results will vindicate the wisdom of the step.

The average attendance of the school has been somewhat reduced in the lower classes by an outbreak of measles in the early months of the year, and in the prevailing influenza, which has marked the past few weeks, the Greenwood has come in for its share.

The school building is in good order and with the exception of the laying of a concrete walk, which ought to be done, no great outlay will be required on the building or grounds. In compliance with the order of the inspectors of buildings a stand pipe has been put in, and the water

is kept constantly turned on, lines of hose being attached on the different floors in readiness for instant use. With the method of heating employed, and the protection afforded by the stand pipe and hose, we feel that the damage from fire has been reduced to the minimum.

Your Committee desire to again call your attention to the growth of this section of the town. There are now in the building 344 pupils. Some of the grades are already crowded. The town will do well to bear in mind that at no distant day additional accommodations for the grammar grades will have to be provided in this district. Should the rubber works recently established near the River street station bring to that locality any large number of children, and should this number be further increased by the coming of other industries to this section, as is contemplated, the consideration of the question of increased accommodation may be forced upon us at an early date.

E. S. HATHAWAY,

CHARLES G. CHICK,

Local Committee.

GREW SCHOOL.

This school has fortunately met with little change in its corps of instructors during the year just closed. Miss Farnsworth, a highly esteemed teacher, resigned in May, and her class was taken by Miss Harriet Gordon of Woodstock, Conn., a lady of considerable experience. At the beginning of the September term, with a view of increasing the general efficiency, Miss Bertram was placed in charge of the seventh class, Miss Gordon of the eighth, and Misses Gushee and Harlow of the ninth classes. The effect of this seems to have been beneficial. Robert Scott, who had been janitor of the building for quite a number

of years, resigned the position a few weeks ago and John Peterson was appointed in his place. Mr. Peterson has had experience in the work required as janitor of Christ Church and of the Y. M. C. A. rooms.

The pupils of this school number about the same as at the beginning of the year. The attendance has been very good. Relief from the former overcrowded state of many of the rooms has given a more satisfactory grading, more personal attention of the teachers to the wants of the individual scholar, and greater ease of discipline. The quiet, orderly and respectful deportment in some of the rooms is very noticeable and gratifying. We understand that corporal punishment is now rarely administered and only when other means have failed to secure ready obedience.

So far as we are enabled to judge the classes have made fair progress in study during the year, and doubtless equal to that of the other schools in town. If the advancement in this direction has not been all which could be desired, we think it is due not to lack of effort on the part of scholars or teachers so much as to the tendency of the present time to scatter instruction over so wide an area that in many instances the result is quite superficial.

The Grew graduated a very large class last June. The class which is expected to graduate next June is even larger, numbering at the present time forty-seven. It is hoped that all of these will then prove to be well equipped either for more extended schooling or for business life.

Voluntary contributions of teachers and pupils furnished means for the purchase of two national flags and a storm signal for this school. The committee caused a suitable flag-staff to be erected on the building, and on

Jan. 10th, after appropriate exercises by the pupils and others in the hall, the flag was run up and given to the breeze.

During the mid-summer vacation one of the classrooms was re-furnished with new desks and chairs. This much needed improvement should be continued throughout the building as soon as possible. When the Grew school was established it was equipped, as we are informed, with furniture procured at second hand, and comprising a variety of styles. It is now old, rickety and dirty, and of various patterns. We hope to have power given us to replace these with modern and suitable equipments. The walls of the room should be thoroughly cleansed and tinted. This was last done about ten years ago. Such work is now needed, not for sanitary reasons but for its educating influences. The six furnaces by which heat is provided for the building seem to us to be a very cumbrous and costly means to that end. They are frequently in need of repair, take up much of the janitor's time which might be profitably given to other necessary matters, give very unequal amounts of heat to the different rooms and cause a great quantity of dust in the basement, much of which finds its way through the cracks in the flooring above and mingles with the air which the scholars in the lower rooms breathe. On every account we think it would be a wise policy to remove and sell these furnaces and heat the building by steam, as is now being so satisfactorily done in the Greenwood school. The school is well supplied with books and apparatus, except that more reference books in the higher classes are needed.

EDMUND DAVIS,

LOUISE M. WOOD,

Sub-Committee.

EVENING SCHOOLS.

Evening schools were opened early in December; one in the Grew building with Mr. Rice as master and Miss Bertram as assistant; the other in the Damon building, with Mr. Eldridge as master and Mr. F. W. Howard as assistant, who shortly after resigning, was succeeded by Mrs. Merrill. Both these schools began with a large number of scholars, more in fact than could be at once accommodated. Though the number has somewhat diminished since, the attendance is yet very good, averaging 33 in the Damon, and a trifle less in the Grew. The majority of the scholars are engaged in work during the day in the various manufactories. Nearly half of them are females.

It is a source of gratification to the committee that while at first quite a number of the occasional attendants at these schools seemed to go there for fun rather than anything else, the most of the regular pupils make a serious business of it and undoubtedly derive much benefit.

EDMUND DAVIS.

E. S. HATHAWAY.

Sub-Committee.

INDUSTRIAL SCHOOL.

The limited appropriation for the year provided the means only to keep this work in operation during the summer vacation. The two schools, one for sewing and one for carpentry were well attended, and the interest well sustained. Mrs. W. A. Boardman had charge of the sewing school, and Mr. J. E. Webb of the pupils in carpentry. Every year the subject of manual training is demanding and receiving increased attention, and we believe that Hyde Park should do more, rather than less in this direction.

A. WASHBURN,

LOUISE M. WOOD.

REPORT OF SCHOOLS.

HIGH SCHOOL.

Principal: JERE. M. HILL.

Sub-Master: E. RICE. Assistants: MISS S. L. MINER, MISS CARRIE B. MORSE,
G. F. ELDRIDGE.

1889.	Whole number.	Average whole number.	Average attendance.	Per cent. of attendance.	Per cent. of punctuality.	No. not absent.	No. not tardy.	No. not absent nor tardy.
